MELPI announces its SmartPhone App “PRE” and puts the Pure Spanish Horse in the forefront of technology ! With this app, MELPI makes available to millions of smart phone users **the most comprehensive database of the Pure Spanish Horse (P.R.E.) in the world!** You get:

- * **the genealogies of 200,000 horses**
- * **more than 80,000 photographs**
- * **over 12,000 videos of morphological competitions**
- * **data updates are done automatically for free**

Both Apple and Google have recognized MELPI as app developers for their IOS and Android environments, and the app is being updated for the iPhone 5. With a simple and easy to use interface, app users have access to the pedigrees of P.R.E. horses from 1800 to the present day and information on over 450 morphological competitions since 2001. MELPI is proud to continue supporting the Pure Spanish Horse market, assisting the promotion and broadcasting of information worldwide. ***A new feature in version 3.0.1, is a new section on “History” where we will show items of general interest to history buffs of our breed.***

In the genealogical section of the app, you can see:
